

To whom it may concern,

I appreciate this opportunity to apply for a position with your company I am a programmer with many years of experience. As you will find from my attached CV, I have most recently been focused on a series of start-up efforts; a primarily javascript & jQuery overlay to Google Maps, a Video game written in Unity C# and launched on both Play Store & App Store and a YouTube channel with a complex backend Php-Bootstrap process. I am now focusing my energies and talents on pursuing a career with an established company and developing a rapport with their technology and workflow. I have extensive experience with all business software available for Windows OS and LAMP stack browser based SAAS or Cloud systems. I am most recently studying Amazon AWS to obtain my Solutions Architect Associate Certificate. My CV reinforces my abilities in online systems and I would very much like to discuss an employment opportunity with you in person.

Thanks,  
Scott E. Smith
